

## A NOTE FROM TEAM INVEST SEARCH

As the festive lights brighten our days, it's also the perfect time to reflect on the value of planning ahead. This month, we celebrated together as a team and explored how early investments can create long-term impact for families. Here's a look at what's been happening at Invest Search!

## #KnowYourMoney: Planning for Your Child's Future

Every parent dreams of providing the best education and opportunities for their child. While love and care come naturally, financial planning turns those dreams into reality.

### Why Start Early?

Starting a SIP when your child is young helps you build a meaningful fund by the time they turn 18. Delaying even by a few years can greatly reduce the final corpus.

*Here's an example assuming 13% annual returns, showing how your child's age and SIP amount can impact the final value:*

**Corpus at Age 18 by Various SIP Amounts**

Child Current Age (Years)	₹10,000 SIP	₹25,000 SIP	₹40,000 SIP
0	₹79,18,587	₹1,97,97,144	₹3,16,75,430
2	₹59,87,622	₹1,49,69,056	₹2,39,50,489
4	₹44,75,182	₹1,11,87,955	₹1,79,00,728
6	₹32,90,719	₹82,26,798	₹1,31,62,877
8	₹23,63,111	₹59,07,778	₹94,52,445
10	₹16,36,658	₹40,91,645	₹65,46,632

*Tip: The earlier you start, the lighter the burden later.*

## Investor Story: The 18th Gift

When Tanisha turned 18, she expected a regular birthday celebration, cake, balloons, and family smiles. What she didn't expect was an envelope that would change her life.

Inside was not a greeting card, but an investment statement, a fund her parents had been contributing to since she was three. That disciplined effort over the years had grown into a corpus that could fund her higher education and her dreams.

It wasn't just money. It was love, foresight, and the power of consistency.

*Lesson: An SIP started early for a child's future can turn care into lifelong confidence.*
